## Introduction

---

Ellerston Capital Limited ("Ellerston"), including its subsidiary Morphic Asset Management ("Morphic"), believes that incorporating Environmental, Social & Governance ("ESG") considerations into the investment process can lead to more informed and holistic investment decision-making and better investment outcomes for our investors.

Ellerston's Responsible Investment Policy outlines our approach to practicing responsible investing which comprises of four key components:

1. **ESG Integration** – the consideration of ESG in our investment process, research, analysis, ongoing monitoring and divestment;
2. **Portfolio Screening** – negative and positive;
3. **Stewardship** – engagement with companies in our investible universe and those included in our portfolios (and all relevant stakeholders), participation in industry working groups and undertaking proxy voting appropriately; and
4. **Transparency** – disclosure of portfolio holdings on a bi-annual basis and annual publication of our Stewardship Report.

Ellerston recognises that good and effective ESG stewardship of our client's investments is important.

A fundamental aspect of stewardship is to vote our clients' proxies, or advise on the exercising of proxy votes, when the investments in their portfolios are entitled to do so. Our intention is to always vote in the best interests of the client's investments in the portfolios that we manage on their behalf.

Every financial year Ellerston will publish a record of its proxy voting for the preceding period. In instances where a vote was cast against the recommendation of the Management, or in favour of a third-party proposal that was not supported by the Company, we will provide an explanation.

## Active Stewardship

---

Being a responsible investor requires us to be good stewards of our client's capital. We do this through individual and collaborative engagement with portfolio companies and proxy voting.

**Corporate engagement** has long been a particularly strong pillar of all of our investment processes. We view engagement as one of the most powerful mechanisms to influence change in listed equities and individual or collaborative engagements can have a positive impact on companies.

**Individual engagement** is where Ellerston engages directly with portfolio companies. It enables discussion of relevant matters with management, ensures good corporate governance practices, and may also seek to influence corporate decision making at a strategic level. We engage with companies on a range of issues including, but not limited to, modern slavery, climate change, diversity and inclusion, greenhouse gas (GHG) emissions<sup>1</sup>, board governance and remuneration. Our analysis of key issues like modern slavery and climate-related risks better informs our corporate engagement priorities.

**Collaborative engagement** is where Ellerston may engage with companies, including those within and outside our portfolio, alongside other investors and industry experts. Collaborative engagement allows investors to pool resources together, which saves investors from duplicating efforts. It also allows investors to have a uniform and targeted approach which can also be less onerous on companies' resources and more effective to enact change. Investors engage on several ESG issues, including climate change and, diversity and inclusion.

**Industry Group** engagement is important for Ellerston, where we engage with the ESG industry, contributing to the evolving development of ESG and gaining additional insights from various forums and working groups. We engage with third parties such as finance and ESG professionals, clients, peers, NGOs, government bodies and policy makers on a range of ESG topics.

**Proxy Voting** is where Ellerston votes on behalf of our clients at the Annual General Meetings (AGMs) or special meetings of companies that we have invested in. We intend to vote their proxy in the best interests of their investments in the portfolios that we manage on their behalf. Portfolio managers (PMs) are responsible for their own fund's proxy voting, with our operations team facilitating and notifying PMs and the ESG team of upcoming votes. The ESG team monitor the voting proposals and supports the PMs in sustainability-related voting decisions where required. Ellerston currently discloses our proxy voting records and the majority of our listed equity holdings on a semi-annual basis, which exceeds local market standards.

<sup>1</sup>GHG emissions and carbon emissions are often used interchangeably, carbon dioxide equivalent is often used as a standard measure of GHG emissions (i.e. GHG emissions are converted into carbon emissions for ease of comparing).

# Case Studies

The following are examples of six companies that Ellerston has engaged with throughout FY 2022-2023.

---

## Case Study: Camms Group

Private Equity

### Industry (GICS sector and industry)

Information Technology - Software and Services

### ESG theme:

ESG Data Collection, ESG Disclosures, ESG Education

### Engagement:

Camms Group (Camms) is an Adelaide-based B2B Software-as-a-Service business providing strategy, risk, project, and compliance management solutions to enterprises, government and small to medium business customers. The company has a strong customer base in ANZ, the UK, the US and Asia across a variety of industries, including government, financial services, energy and utilities, construction, transportation, and more.

Ellerston engaged the Camms management team to deploy their 'Camms.Strategy' module across the Ellerston JAADE portfolio to enable the collection and monitoring of ESG data. Ellerston determined the ESG metrics for the JAADE portfolio companies to collate, which broadly aligns with the ESG Data Convergence Initiative. Ellerston has been actively involved with the development of Camms' new ESG module to ensure the tool leverages the capability of the broader Camms products alongside the specific needs of ESG-related data and reporting.

In order to ensure the JAADE portfolio companies feel supported with the ESG data requirements, ESG-related education sessions and Camms platform walkthroughs were provided.

### Result:

The ESG maturity of JAADE portfolio companies vary across the strategy due to company size and stage of growth. Nonetheless, this engagement has successfully increased the awareness and importance of ESG data. We are continuing to work with the Camms management team to develop the platform and create useful integrations that will enable powerful features such as automatic and real-time data feeds and benchmarking via third party data sources.

## Case Study: Advantest Corp

TYO: 6857, Japanese Mid-Small Cap

### Industry (GICS sub-industry and sector):

Semiconductor Materials & Equipment, Information Technology

### ESG theme:

Social - Employee Engagement

### Engagement:

The Global Mid Smalls strategy integrates an ESG process to review material ESG risks for a company and/or a sector. In relation to Advantest Corp (Advantest), employee engagement and workplace culture were identified as material topics. Whilst Advantest conducted regular global employee engagement surveys in 2018, it scored 3.48 out of 5 (behind the comparable industry average of 4.03). In 2021, the score improved to 3.64. However, the company noted that there was still room for improvement.

In March 2023, we engaged with Advantest's management team and enquired on the status of employee engagement and workplace culture and if any new initiatives were being developed.

### Result:

Management acknowledged the need to improve the recognition of employees' work. They understood that this is partly cultural due to the hierarchal working culture of Japanese corporations.

To implement change, management analysed the global employee engagement survey data and identified different improvement areas across each business unit (e.g. R&D, sales, accounting). Advantest will focus on these areas in FY23 and hope to see further improvement in the next survey to be conducted later in 2023.

An example of an initiative is to renovate office spaces to promote hybrid working and greater collaboration. When we met with management, we were shown a newly renovated display floor which featured a modern and spacious open plan design which promotes greater workplace engagement.

While we intend to continue monitoring Advantest's employee engagement initiatives, it is clear that management is open to constructive engagement and committed to making directional changes.

## Case Study: Cellnex Telecom

BME: CLNX, Spanish Mid-Small Cap

### Industry (GICS sub-industry and sector)

Integrated Telecommunication Services, Communication Services

### ESG theme:

Corporate Governance, Board Structure

### Engagement:

Cellnex Telecom (Cellnex) is in the midst of a strategic pivot. Its divergence from an M&A-focused consolidation strategy of the European tower market to deleveraging and focusing on organic growth in its existing markets is significant. As a result of this pivot, longstanding CEO Tobias Martinez resigned in January 2023 and the Board was tasked to find a new CEO.

Throughout the process, we regularly engaged with the Cellnex Investor Relations team about potential upcoming governance issues we have identified, including the importance of consultation with all stakeholders during the CEO search to ensure a smooth transition.

We understood that the Cellnex Board was considering whether to select an external or internal candidate. While an internal candidate could be efficient in the role transition given the unique nature of Cellnex, as the only independent tower company in Europe, an external candidate would bring a fresh, outside perspective.

Ultimately, Chairman Bertrand Kan and Director Peter Shore stood down due to pressure from a large shareholder who favoured an external candidate. As it seemed likely this large shareholder had a strong influence in the Cellnex Boardroom, we communicated our concerns that the Board consult all stakeholders.

### Result:

The Cellnex Investor Relations team assured us that the Board was taking a balanced approach and in April 2023, they ultimately nominated Marco Patuano as CEO, a previous Cellnex Chairman and veteran of the European telecommunications industry. While we continue to watch the company to see how this governance transition develops, the company has appropriately managed the relationships with the internal candidates, with current CFO Jose Manuel Aisa recently acknowledging Marco Patuano as "the most internal external candidate".

## Case Study: Woodside Energy Ltd

ASX: WDS, Australian Large Cap

### Industry (GICS sector and industry)

Oil & Gas Exploration & Production, Energy

### ESG theme:

Climate Change

### Engagement:

Proxy voting is a pillar of Ellerston Capital's active ownership and stewardship approach. Ellerston uses third-party providers such as ISS to act as a secondary source for voting perspectives (alongside internal views). Ellerston utilised these such providers on the issue of climate change-related disclosure, ahead of Woodside Energy's AGM. The resolutions in question were (a) an amendment of the condition and (b) a contingent resolution (if resolution (a) was passed) to disclose Capital Allocation information for oil and gas assets and demonstrate how it aligns with the company's "aspiration" to develop a Net-Zero 2050 commitment.

The increasing number of high GHG emitting companies that have announced a 2050 target warrants a closer look at Woodside Energy's strategy. Details and targets on how a company's current strategy is consistent with the longer term target are important for shareholders to hold the incumbent management accountable for acting in the short and medium term. The approach to encourage these changes is just as critical. Do you start small, or aim for big change? The primary issue with resolution (a) was that the changes requested were too broad and general. A more targeted approach should have been encouraged. The underlying principle of resolution (b) is sound and understandable and what a number of companies have implemented.

### Result:

We voted against resolution (a) due to the broad nature of the requests. We voted in favour of resolution (b) on a principle basis. It is our view that a 2050 Net-Zero target can no longer be an aspiration for a large GHG emitting company, but detailed strategic planning should at least be in development and communicated.

## Case Study: Servcorp Ltd

ASX: SRV, Australian Micro Cap

### Industry (GICS sector and industry)

Real Estate

### ESG theme:

ESG Regulations, ESG Reporting

### Engagement:

Servcorp is an innovative and established multinational real estate organisation that sells and caters for a variety of office spaces to meet the demands of a diverse client base. Office spaces include serviced and virtual offices alongside smaller meeting rooms.

We engaged in a few ESG-related discussions with Servcorp, mainly associated with ESG reporting and carbon emissions. Servcorp wished to implement an innovative approach to ESG-related reporting, alongside their already novel approach to financial reporting. They sought to understand how to communicate which of the 5 Capitals (Manufactured, Financial, Social, Human, and Natural) drive their business in line with the (<IR>) Integrated Reporting guidelines.

Sustainability reporting is voluntary and sporadically applied across the Australian market. Companies commonly present this as a separate section within their annual financial reports. However, the changing regulatory and oversight of sustainability reporting warrant close engagement.

### Result:

Natural and Human capital were identified as two inherent qualities that Servcorp possess and should be presented via its annual disclosure. Whether it is through company-run initiatives and/or the current state of the business, Ellerston recommended that these two models should be of focus and presented coherently. It was agreed that as Servcorp progresses in their data gathering and reporting timeline that close engagement with the Ellerston ESG team is beneficial.

## Case Study: Li-Ning

HKG: 2331, China Large Cap

### Industry (GICS sub-industry and sector):

Consumer Discretionary

### ESG theme:

Social - Modern Slavery

### Engagement:

Li-Ning is a Chinese sportswear and sports equipment company founded in 1990 by Mr Li Ning who has been known as the "Prince of Gymnastics" for winning 6 medals at the 1984 Summer Olympics. Li Ning is the fourth largest sportswear company in China with over 7,000 stores. It mainly provides sporting goods including footwear, apparel and accessories. We have extensively engaged with Li-Ning throughout our holding period on various issues, with a recent particular focus on forced labour in its supply chain.

In 2022, Li-Ning was accused of using forced labour in its supply chain. We held a virtual meeting with Li-Ning's ESG team in August 2022 to address the accusations. Topics specifically discussed were: (1) their audit procedures with regard to human rights and forced labour; and (2) their policy of engaging suppliers in Xinjiang and whether they have been under government influence for participating in the state-led poverty programs. We note that our past deep dive research and extensive engagement with the company did not uncover any inadequate supply chain practices.

### Result:

Following our engagement, we were confident that the company has a robust ESG framework around its supply chain. We were also satisfied with the company's audit results whereby 100 of Li-Ning's suppliers had recently passed independent assessments conducted by external ESG specialists.

# Proxy Voting

## Proxy Voting Guidelines

As a responsible investor, we believe that ESG issues may impact the value of entities in which we invest. We are committed to incorporating ESG standards into our voting criteria to act in the long-term interests of our clients as per our guidelines below:

1. Act in the long-term interests of shareholders.
2. Protect shareholders' rights.
3. Ensure independent, diverse and efficient board structure.
4. Align incentive structures with long-term interests of stakeholders.
5. Disclose accurate, adequate, and timely information.
6. Ensure good environmental and social performance.

Voting decisions are based on the following considerations:

- For: The proposed resolution reflects good practice and is in the stakeholders' long-term interest
- Abstain: The proposal raises issues of concern for shareholders or lacks sufficient information
- Against: The proposal is not acceptable and is not in the shareholders' long-term interest

In the event that we vote on a resolution in opposition to the management recommendation, we will attempt to engage with the Company ahead of the shareholder meeting in order to communicate our voting intention and explain our rationale for opposing the management recommendation.

## Proxy Voting Process

Ellerston receives notices of shareholder meetings from its portfolio companies through its custodians or the companies themselves. Our analysts and portfolio managers will form a view on the items to be voted upon with the voting decisions being made on a case by-case basis based on the guidelines above.

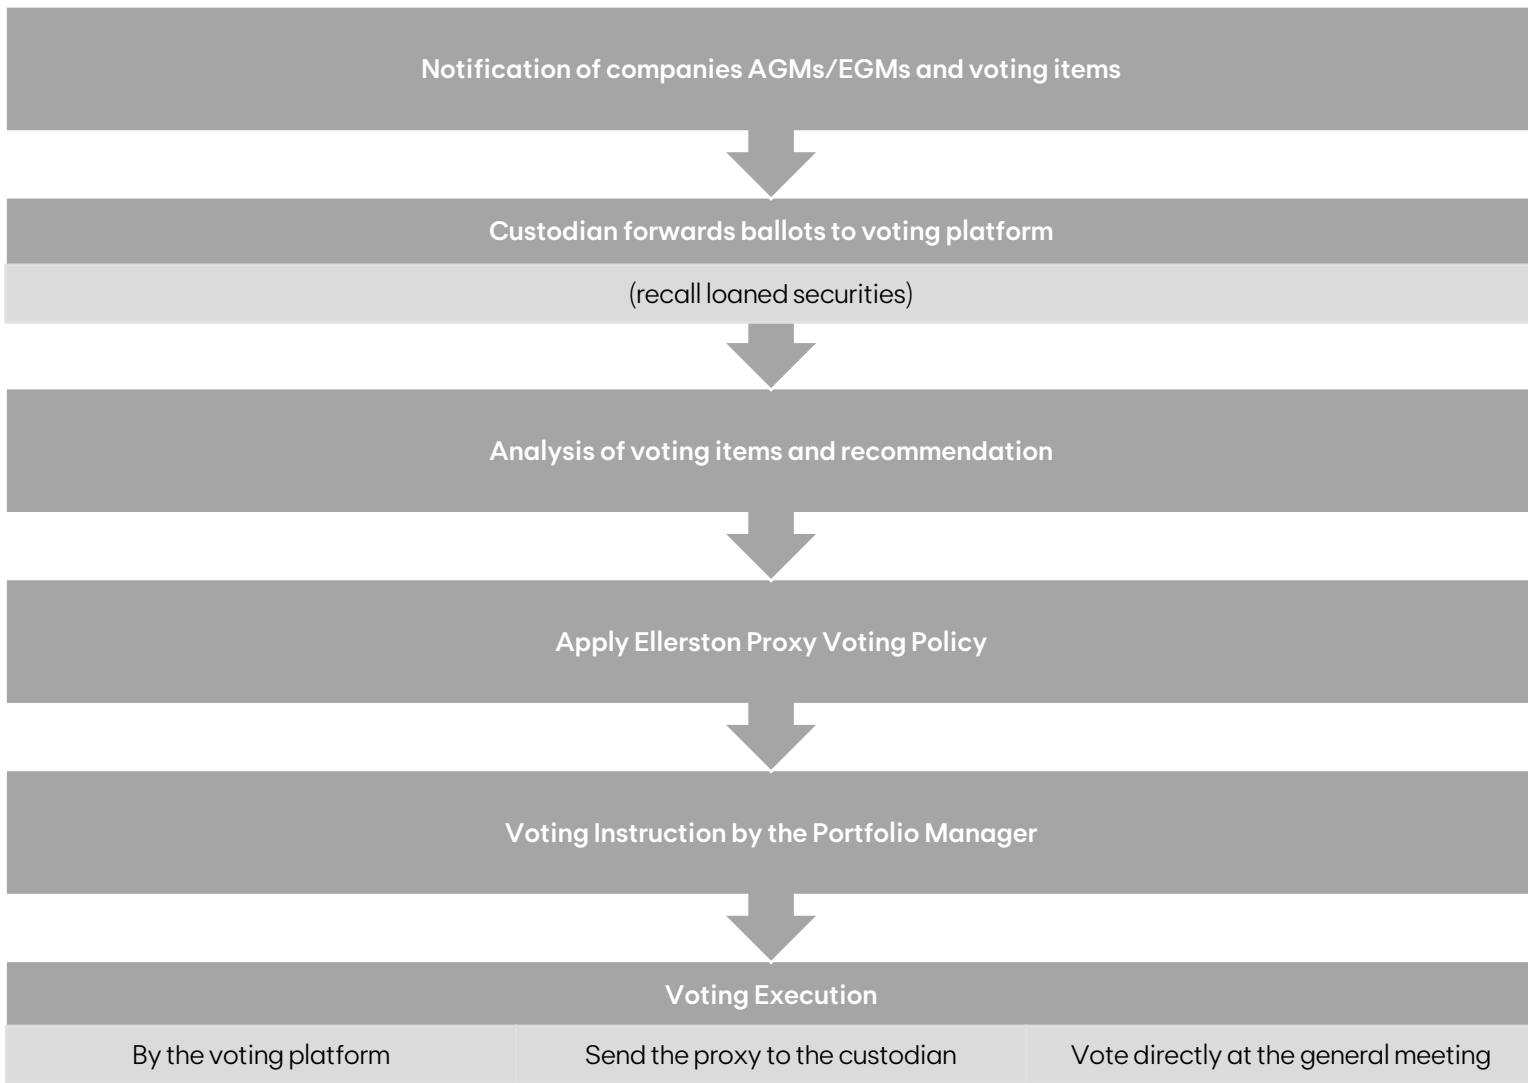

Where Ellerston has discretion under its agreement with the client, as a general rule, Ellerston will not seek direction from the client prior to it exercising a vote or initiating relevant company engagement to address individual issues. However, Ellerston may from time-to-time consult with clients on particular issues. Clients may require our proxy voting to follow the recommendations of third party Proxy Advisors, or may direct Ellerston to vote on specific issues, and we will implement that direction to the extent we are able to do so.

It may be the case that we attend shareholder meetings and vote for our clients proxies in person.

As part of enhancing our voting process, we are now more closely monitoring sustainability-related proposals, for example, proposals relating to biodiversity, climate change, GHG emissions, modern slavery, human rights and diversity and inclusion.

The following schematic outlines the key steps of the proxy voting process, from the notification of voting agendas in the context of Annual General Meetings (AGM) or Extraordinary General Meetings (EGM), through to actual voting execution:

---

## Disclosure and Transparency

Consistent with our commitment and responsibilities related to PRI and, where relevant, product certification bodies such as RIAA, our policy is to provide full transparency on our proxy voting on an annual basis.

After the close of each financial year, Ellerston will publish on its website a summary of its proxy voting activities for the previous financial year providing the details below (when available):

- The name of the entity and the country in which it is listed
- The meeting type and meeting date
- Whether the matter or matters voted on were proposed by the issuer, its management or another person or company
- A brief identification or description of the matter or matters (proposals) to be voted on at the meeting
- The Management recommendation
- How Ellerston voted, or advised, on the matter or matters
- Whether Ellerston voted against management on the matter or matters
- In the case of a decision to vote against management, or a vote on shareholder resolutions, a record reflecting the reason for that decision

## **Other Issues**

### **Conflicts of Interest**

All Ellerston employees are under an obligation to be aware of the potential for conflicts of interest with respect to proxy votes on behalf of clients. We acknowledge that conflicts of interest do arise and where a conflict of interest is considered material, Ellerston will abstain from voting until the conflict is managed or resolved. Ellerston maintains a Conflict of Interest Policy which provides the framework and rules which address this issue.

### **Shorting**

Where client and product mandates allow, Ellerston may from time-to-time sell short securities of companies where it believes this will generate good investment returns for our clients. Ellerston cannot vote on securities that are short sold; the buyer is entitled to vote instead.

### **Securities Lending**

The holdings of Ellerston's funds may be loaned out by our custodians in order to generate securities lending revenues and facilitate market liquidity. In the event that holdings are loaned out, in order to vote at forthcoming shareholder meetings, we will attempt to have the shares recalled.

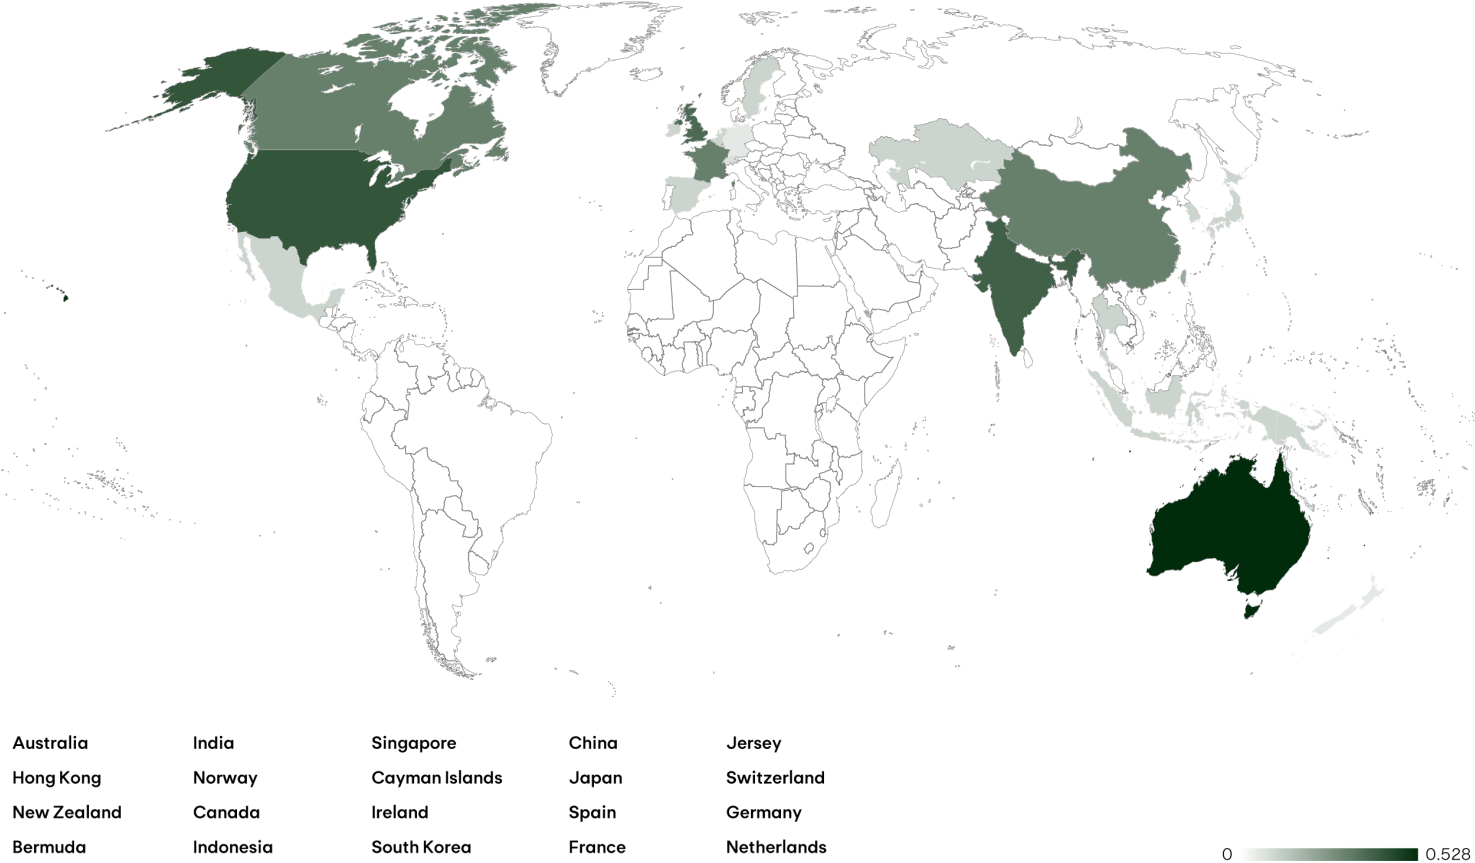

---

## Summary of Proxy Voting

Throughout FY2022-2023 we voted on more than 300 meetings that consisted of more than 4,500 proposals. This was for over 250 companies across more than 20 countries.

The following demonstrates the geographies that we have voted in:

### Countries Voted

From 1 July 2022 to 30 June 2023, we voted on 97.53% of votable proposals. Where we voted, 1.99% of our votes were against management recommendations. For each of these proposals where we voted against management, an explanation is provided in the table below (Full Disclosure of Proxy Voting Record).

### Full Disclosure of Proxy Voting Records

## **1Voting Notes:**

The following provides Ellerston Capital's explanations where we have voted against management.

### **Company: Acrow Formwork and Construction Services Limited, AGM 15/11/2022**

Proposal type: Management

Proposal: Adopt New Constitution

Vote: Against

Explanation: The addition of possible virtual meetings in the future may enable the company to control who asks what questions at AGMs, therefore making it harder for shareholders to publically question the board of directors.

### **Company: Advantest Corp, AGM 27/06/2023**

Proposal type: Management

Proposal: Elect Director Yoshida, Yoshiaki

Vote: Against

Explanation: A vote "Against" is warranted due to CEO/Chairman duality.

### **Company: AMA Group Ltd, AGM 24/11/2022**

Proposal type: Management

Proposal: Approve the Amendments to the Company's Constitution

Vote: Against

Explanation: The addition of possible virtual meetings in the future may enable the company to control who asks what questions at AGMs, therefore making it harder for shareholders to publically question the board of directors.

### **Company: Aspen Group, AGM 18/11/2022**

Proposal type: Management

Proposal: Approve the Amendments to the Company's and Trust's Constitution

Vote: Against

Explanation: The addition of possible virtual meetings in the future may enable the company to control who asks what questions at AGMs, therefore making it harder for shareholders to publically question the board of directors.

**Company: Astral Limited, Extraordinary Shareholders Meeting 03/03/2023**

Proposal type: Management

Proposal: Elect Chetas Gulabbhai Desai as Director

Vote: Abstain

Explanation: Insufficient information provided to the background and rationale of the Director appointment.

**Company: Astral Limited, Extraordinary Shareholders Meeting 03/03/2023**

Proposal type: Management

Proposal: Elect Dhinal Ashvinbhai Shah as Director

Vote: Abstain

Explanation: Insufficient information provided to the background and rationale of the Director appointment.

**Company: AUB Group Limited, AGM 03/11/2022**

Proposal type: Management

Proposal: Elect Ratify Past Issuance of Placement Shares to Institutional Investors

Vote: Abstain

Explanation: We participated in the capital raising.

**Company: Aussie Broadband Limited, AGM 21/10/2022**

Proposal type: Management

Proposal: Approve the Amendments to the Company's Constitution

Vote: Against

Explanation: The addition of possible virtual meetings in the future may enable the company to control who asks what questions at AGMs, therefore making it harder for shareholders to publically question the board of directors.

**Company: BHP Group Limited, AGM 10/11/2022**

Proposal type: Shareholder

Proposal: Approve Policy Advocacy

Vote: For

Explanation: Ellerston would like to see BHP move to more defined/planned targets rather than broad statements.

**Company: BHP Group Limited, AGM 10/11/2022**

Proposal type: Shareholder

Proposal: Approve Climate Accounting and Audit

Vote: For

Explanation: Ellerston would like to see additional transparency/disclosure, either through voluntary or mandatory initiatives.

**Company: Boss Energy Limited, AGM 24/11/2022**

Proposal type: Management

Proposal: Approve Issuance of Options to Jan Honeyman

Vote: Against

Explanation: A vote AGAINST this resolution is warranted because local market guidelines do not support the grant of incentive equity awards to NEDs in light of ensuring independent judgment by the NEDs and preventing any potential conflict of interest.

**Company: BYD Company Limited, AGM 08/06/2023**

Proposal type: Management

Proposal: Approve Issuance of Equity or Equity-Linked Securities without Preemptive Rights for Additional H Shares

Vote: Against

Explanation: No discount limit has been set. Further, issuing equities or equity-linked securities without pre-emptive rights may lead to situations that are not in the best interest of shareholders.

**Company: BYD Company Limited, AGM 08/06/2023**

Proposal type: Management

Proposal: Approve Issuance by BYD Electronic (International) Company Limited of Equity or Equity-Linked Securities without Preemptive Rights

Vote: Against

Explanation: No discount limit has been set. Further, issuing equities or equity-linked securities without pre-emptive rights may lead to situations that are not in the best interest of shareholders.

**Company: China Mengniu Dairy Company Limited, AGM 06/06/2023**

Proposal type: Management

Proposal: Approve Issuance of Equity or Equity-Linked Securities without Preemptive Rights

Vote: Against

Explanation: No discount limit has been set. Further, issuing equities or equity-linked securities without pre-emptive rights may lead to situations that are not in the best interest of shareholders.
