Introduction

Ellerston Capital Limited ("Ellerston"), including its subsidiary Morphic Asset Management ("Morphic"), believes that incorporating Environmental, Social & Governance ("ESG") considerations into the investment process can lead to more informed and holistic investment decision-making and better investment outcomes for our investors.

Ellerston's Responsible Investment Policy outlines our approach to practicing responsible investing which comprises of four key components:

- 1. ESG Integration** – the consideration of ESG in our investment process, research, analysis, ongoing monitoring and divestment;
- 2. Portfolio Screening** – negative and positive;
- 3. Stewardship** – engagement with companies in our investible universe and those included in our portfolios (and all relevant stakeholders), participation in industry working groups and undertaking proxy voting appropriately; and
- 4. Transparency** – disclosure of portfolio holdings on a bi-annual basis and annual publication of our Stewardship Report.

Ellerston recognises that good and effective ESG stewardship of our client's investments is important.

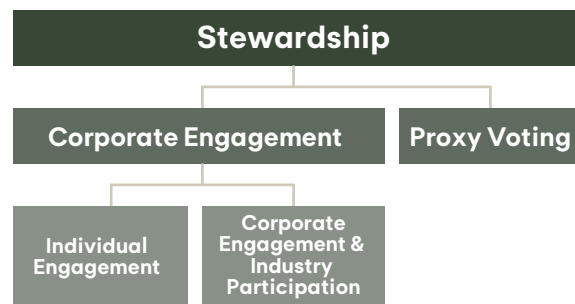

A fundamental aspect of stewardship is to vote our clients' proxies, or advise on the exercising of proxy votes, when the investments in their portfolios are entitled to do so. Our intention is to always vote in the best interests of the client's investments in the portfolios that we manage on their behalf.

Every financial year Ellerston will publish a record of its proxy voting for the preceding period. In instances where a vote was cast against the recommendation of the Management, we will provide an explanation.

Active Stewardship

Being a responsible investor requires us to be good stewards of our client's capital. We do this through individual and collaborative engagement with portfolio companies and proxy voting.

Corporate engagement has long been a particularly strong pillar of all of our investment processes. We view engagement as one of the most powerful mechanisms to influence change in listed equities and individual or collaborative engagements can have a positive impact on companies.

Individual engagement is where Ellerston engages directly with portfolio companies. It enables discussion of relevant matters with management, ensures good corporate governance practices, and may also seek to influence corporate decision making at a strategic level. We engage with companies on a range of issues including, but not limited to, modern slavery, climate change, diversity and inclusion, greenhouse gas (GHG) emissions¹, board governance and remuneration. Our analysis of key issues like modern slavery and climate-related risks better informs our corporate engagement priorities.

Collaborative engagement is where Ellerston may engage with companies, including those within and outside our portfolio, alongside other investors and industry experts. Collaborative engagement allows investors to pool resources together, which saves investors from duplicating efforts. It also allows investors to have a uniform and targeted approach which can also be less onerous on companies' resources and more effective to enact change. Investors engage on several ESG issues, including climate change and diversity and inclusion.

Industry Group engagement is important for Ellerston, where we engage with the ESG industry, contributing to the evolving development of ESG and gaining additional insights from various forums and working groups. We engage with third parties such as finance and ESG professionals, clients, peers, NGOs, government bodies and policy makers on a range of ESG topics.

Proxy Voting is where Ellerston votes on behalf of our clients at the Annual General Meetings (AGMs) or special meetings of companies that we have invested in. We intend to vote their proxy in the best interests of their investments in the portfolios that we manage on their behalf. Portfolio managers (PMs) are responsible for their own fund's proxy voting, with our operations team facilitating and notifying PMs and the ESG team of upcoming votes. The ESG team monitor the voting proposals and supports the PMs in sustainability-related voting decisions where required. Ellerston currently discloses our proxy voting records and the majority of our listed equity holdings on a semi-annual basis, which exceeds local market standards.

¹ GHG emissions and carbon emissions are often used interchangeable, carbon dioxide equivalent is often used as a standard measure of GHG emissions (i.e. GHG emissions are converted into carbon emissions for ease of comparing).

Individual Engagement with Companies

Throughout the year Ellerston have engaged with numerous companies across a range of industries on ESG issues. A summary of the engagements is provided below at the GICS sector level.

Sector	Example of topics discussed	
Consumer Discretionary	Corporate governance Remuneration Cybersecurity	Supply chain management Sustainability strategy
Energy	Corporate governance Remuneration	Workplace health and safety Sustainability strategy
Financials	Board structure Remuneration	
Industrials	ESG reporting ESG rating systems Workplace health and safety	Carbon emissions Diversity & Inclusion Responsible AI
Information Technology	GHG emissions Employee welfare	Energy usage Gender diversity

Collaborative Engagement and Industry Participation

The following is a list of our memberships and working groups.

Memberships

Principles of Responsible Investment (PRI)

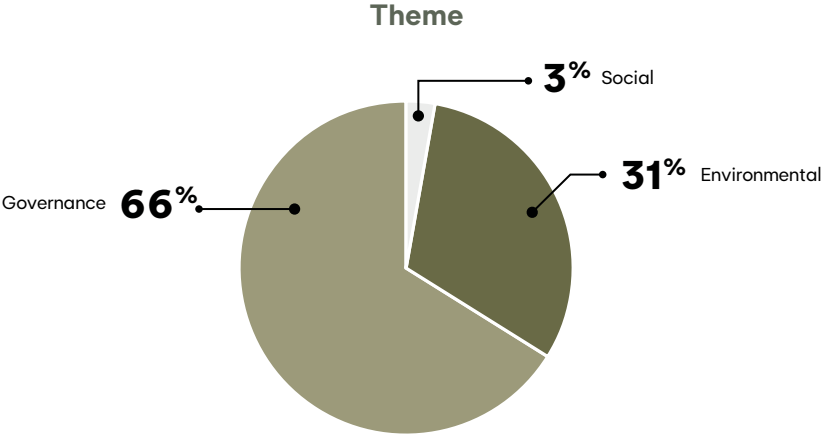

Engagement Summary

Ellerston Capital undertook over 100 engagements for FY24-25. Our investee companies were engaged on a variety of issues, with environmental issues such as carbon accounting, climate change and environmental impact being the focal points. With increased regulatory and public focus on climate reporting, we predict this will continue into the future.

The following is a summary of all engagements by Ellerston from 1 July 2024 to 30 June 2025. This is broken down by theme.

Case Studies

The following are examples of 6 companies that Ellerston engaged with throughout FY 2024-2025.

Case Study

Superloop Ltd

ASX: SLC, Australian Micro Cap

Industry (GICS Sector)

Communication Services

ESG theme

ESG Reporting & Disclosure

Engagement

Superloop is one of Australia's largest residential broadband re-sellers. The company owns a large portion of its infrastructure and has a strong wholesale and business offering. Superloop established its first ESG Strategy in FY23. Since then, the company has been increasing its ESG awareness internally. The content within the initial company reporting sustainability section was encouraging but highly qualitative. Multiple ESG-focused engagements occurred in FY25 with Superloop to understand how these datapoints were progressing, to assist with any blockages and to continue to guide the business. Engagement topics included:

- Carbon Emissions
- Waste data collection
- Modern Slavery
- Employee Engagement

Result

Ellerston continues to have active discussions with Superloop to ensure more quantitative ESG reporting is provided. As referenced in the FY24 annual report, Superloop has undertaken an initial assessment of their Scope 1, 2 and 3 emissions and Ellerston looks forward to the company's next iteration of reporting. Additionally, it was established that Superloop predominately has hardware waste which requires assessment of circularity and recyclability.

Case Study

SKS Technologies Group Ltd (SKS)

ASX: SKS, Australian Mid Cap, 2050

Industry (GICS Sector)

Industrials

ESG theme

ESG Reporting & Disclosure

Engagement

SKS Technologies Group Ltd engages in the development and distribution of technology products. It provides audiovisual products, and electrical and communications cabling for the commercial, retail, health and the education market. The company has experienced significant financial growth over the past 24 months.

The Ellerston ESG team was introduced to SKS by the Ellerston investment team to discuss improving ESG-related disclosures after the release of the FY24 annual report. The discussion with SKS Technologies explored:

- What ESG-related business-as-usual practices the company undertakes, which require no additional knowledge or cost and could become the starting point for ESG disclosure improvements.
- The calculation of Scope 1 and Scope 2 carbon emissions.
- The awareness of cybersecurity risk management procedures given the business provides products in communication.
- Gender and other forms of diversity metrics as the industry is considered to have low female representation.

Result

Ellerston encouraged SKS to commence the collation of certain ESG data points for increased disclosure maturity. In addition, the SKS Technologies team committed to raising the discussion with the Board to highlight that investors were requesting ESG-related improvements to secure strategic commitment to this topic.

Case Study

NOJA Power (NOJA)

Private Equity – Industrial Growth

Industry (GICS Sector)

Industrials

ESG theme

ESG Reporting & Disclosure

Engagement

NOJA Power is the market leader in medium voltage pole mounted switch gear, leveraging its innovative product suite to provide control systems and protection systems in an environmentally friendly approach with applications across a broad spectrum of geographic and technical requirements to the electricity distribution market. NOJA has operated for over 20 years and deployed over 100,000 installations across 114 countries.

The Ellerston ESG team discussed several topics with the NOJA team including but not limited to:

- Climate Change: The preparation of the company for ASRS reporting, the calculation of additional Scope 3 carbon emissions such as employee travel, alongside the embodied carbon of their products and undertaking a physical climate change assessment on each NOJA property location.
- CSR: The compilation of an ESG Strategy.

Result

NOJA produced their first ESG report in December 2024. The report clearly outlines the company's sustainability framework and process and outlines several KPI measures such as Scope 1 and 2 emissions, waste disposal rate, recycle/reuse rate and water consumption. Ellerston is confident with the significant progress NOJA has made in a short period of time and is looking forward to the next iteration of the Sustainability Report.

Case Study

John's Lyng Group

ASX: JLG, Large Cap, Emerging Leaders, 2050

Industry (GICS Sector)

Industrials

ESG theme

ESG Reporting & Disclosure

Engagement

Johns Lyng Group is an integrated building services provider. They specialise in building, restoration, strata and energy services both nationally and internationally. Their core business is rebuilding and restoring properties damaged by insurable events.

Johns Lyng Group fall within Tier 2 of the AASB reporting requirements (starting July 1, 2026). Ellertson's ESG team engaged the executive team to inquire on the company's preparation and status for the impending reporting requirements. Additionally, the ESG team provided information on the federal government's Rewire the Nation initiative and broader ESG strategies the company could implement. The Ellerston ESG team provided information concerning third-party ESG ratings providers such as ISS, MSCI and Sustainalytics.

Result

Johns Lyng Group noted that it was aware of its reporting obligations and had already engaged several third-party companies specializing in carbon data collection and reporting. The company understood the importance of the Rewire the Nation initiative and would stay abreast of any developments. Johns Lyng Group understood the importance of ESG rating providers in some sectors of financial markets and that a company level ESG strategy can address most of the material ESG issues pertinent to the company.

Case Study

Symal Group Ltd (Symal)

ASX: SYL, Global Equities

Industry (GICS Sector)

Industrials

ESG theme

ESG Reporting & Ratings

Engagement

Symal Group Ltd is an Australian construction group that provides end-to-end civil construction solutions. They specialise in major and complex civil infrastructure projects, offering services across various sectors like roads, rail and energy.

Symal Group (JLG) fall within Tier 2 of the AASB reporting requirements (starting July 1, 2026). Ellerston ESG team engaged Symal's executive team to inquire about the company's preparation and status for the impending reporting requirements. Additionally, as Symal Group is recently listed, the Ellerston ESG team provided information concerning third-party ESG ratings providers such as ISS, MSCI and Sustainalytics. The Ellerston ESG team also discussed broader ESG strategy within the construction and engineering sector and what ESG issues potential investors will likely monitor.

Result

Symal noted that it was aware of its mandatory reporting obligations and had already commenced data collection in preparation for reporting. Symal understood the importance of ESG rating providers in some sectors of financial markets and that a company level ESG strategy can address most of the material ESG issues pertinent to the company.

Case Study

Healius Ltd

ASX: HLS, Australian Large Cap

Industry (GICS Sector)

Health Care

ESG Theme

Remuneration

Engagement

Healius is an Australian healthcare company that provides diagnostic services, including pathology and diagnostic imaging. They are a major provider of pathology services in Australia, with a large network of laboratories and collection centres. Additionally, Healius offer diagnostic imaging services and operates day hospitals.

As part of Healius' investor engagement activities, The Ellerston ESG and Investment team met with the Chair of People and Governance Committee to provide an update on the current CEO arrangements, actions from the previous AGM, proposed LTI arrangements, as well as giving an opportunity for Ellerston to raise questions and provide feedback.

Result

Healius noted their current remuneration package was determined by three parameters:

- Delivery of Strategic goals
- Restructure - reduction of material costs
- Pathology EBITDA Margin

Ellerston noted the targets as being challenging but achievable.

Proxy Voting

Proxy Voting Guidelines

As a responsible investor, we believe that ESG issues may impact the value of entities in which we invest. We are committed to incorporating ESG standards into our voting criteria to act in the long-term interests of our clients as per our guidelines below:

1. Act in the long-term interests of shareholders.
2. Protect shareholders' rights.
3. Ensure independent, diverse and efficient board structure.
4. Align incentive structures with long-term interests of stakeholders.
5. Disclose accurate, adequate, and timely information.
6. Ensure good environmental and social performance.

Voting decisions are based on the following considerations:

For: The proposed resolution reflects good practice and is in the stakeholders' long-term interest

Abstain: The proposal raises issues of concern for shareholders or lacks sufficient information

Against: The proposal is not acceptable and is not in the shareholders' long-term interest

In the event that we vote on a resolution in opposition to the management recommendation, we will attempt to engage with the Company ahead of the shareholder meeting in order to communicate our voting intention and explain our rationale for opposing the management recommendation.

Proxy Voting Process

Ellerston receives notices of shareholder meetings from its portfolio companies through its custodians or the companies themselves. Our analysts and portfolio managers will form a view on the items to be voted upon with the voting decisions being made on a case by-case basis based on the guidelines above.

Where Ellerston has discretion under its agreement with the client, as a general rule, Ellerston will not seek direction from the client prior to it exercising a vote or initiating relevant company engagement to address individual issues. However, Ellerston may from time-to-time consult with clients on particular issues. Clients may require our proxy voting to follow the recommendations of third party Proxy Advisors, or may direct Ellerston to vote on specific issues, and we will implement that direction to the extent we are able to do so.

It may be the case that we attend shareholder meetings and vote for our clients proxies in person.

As part of enhancing our voting process, we are now more closely monitoring sustainability-related proposals, for example, proposals relating to biodiversity, climate change, GHG emissions, modern slavery, human rights and diversity and inclusion.

The following schematic outlines the key steps of the proxy voting process, from the notification of voting agendas in the context of Annual General Meetings (AGM) or Extraordinary General Meetings (EGM), through to actual voting execution:

Disclosure and Transparency

Consistent with our commitment and responsibilities related to PRI and, where relevant, product certification bodies such as RIAA, our policy is to provide full transparency on our proxy voting on an annual basis.

After the close of each financial year, Ellerston will publish on its website a summary of its proxy voting activities for the previous financial year providing the details below (when available):

- The name of the entity and the country in which it is listed
- The meeting type and meeting date
- Whether the matter or matters voted on were proposed by the issuer, its management or another person or company
- A brief identification or description of the matter or matters (proposals) to be voted on at the meeting
- The Management recommendation
- How Ellerston voted, or advised, on the matter or matters
- Whether Ellerston voted against management on the matter or matters
- In the case of a decision to vote against management a record reflecting the reason for that decision.

Other Issues

Conflicts of Interest

All Ellerston employees are under an obligation to be aware of the potential for conflicts of interest with respect to proxy votes on behalf of clients. We acknowledge that conflicts of interest do arise and where a conflict of interest is considered material, Ellerston will abstain from voting until the conflict is managed or resolved. Ellerston maintains a Conflicts of Interest Policy which provides the framework and rules which address this issue.

Shorting

Where client and product mandates allow, Ellerston may from time-to-time sell short securities of companies where it believes this will generate good investment returns for our clients. Ellerston cannot vote on securities that are short sold; the buyer is entitled to vote instead.

Securities Lending

The holdings of Ellerston's funds may be loaned out by our custodians to generate securities lending revenues and facilitate market liquidity. If holdings are loaned out; to vote at forthcoming shareholder meetings, we will attempt to have the shares recalled.

Summary of Proxy Voting

Throughout FY2024-2025 we voted on more than 350 meetings that consisted of more than 2,500 proposals. This was for over 300 companies across more than 20 countries.

The following demonstrates the geographies that we have voted in:

Countries Voted

From 1 July 2024 to 30 June 2025, we voted on 99.10% of votable proposals. Where we voted, 7.20% of our votes were against management recommendations. For each of these proposals where we voted against management, an explanation is provided in the table below (Full Disclosure of Proxy Voting Record).

Full Disclosure of Proxy Voting Records

The following is a table of all votes cast by Ellerston from 1 July 2024 to 30 June 2025. Explanatory notes are provided where Ellerston has voted against management.
