Table of contents

Introduction

Ellerston Capital Limited ("Ellerston"), including its subsidiary Morphic Asset Management ("Morphic"), believes that incorporating Environmental, Social & Governance ("ESG") considerations into the investment process can lead to more informed and holistic investment decision-making and better investment outcomes for our investors.

Ellerston's Responsible Investment Policy outlines our approach to practicing responsible investing which comprises of four key components:

1. **ESG Integration** – the consideration of ESG in our investment process, research, analysis, ongoing monitoring and divestment;
2. **Portfolio Screening** – negative and positive;
3. **Stewardship** – engagement with companies in our investible universe and those included in our portfolios (and all relevant stakeholders), participation in industry working groups and undertaking proxy voting appropriately; and
4. **Transparency** – disclosure of portfolio holdings on a bi-annual basis and annual publication of our Stewardship Report.

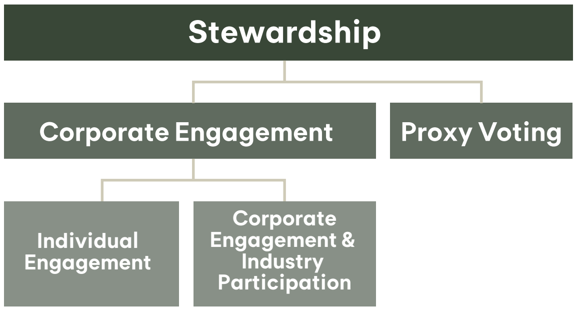
Ellerston recognises that good and effective ESG stewardship of our client's investments is important.

A fundamental aspect of stewardship is to vote our clients' proxies, or advise on the exercising of proxy votes, when the investments in their portfolios are entitled to do so. Our intention is to always vote in the best interests of the client's investments in the portfolios that we manage on their behalf.

Every financial year Ellerston will publish a record of its proxy voting for the preceding period. In instances where a vote was cast against the recommendation of the Management, we will provide an explanation.

Active Stewardship

Being a responsible investor requires us to be good stewards of our client's capital. We do this through individual and collaborative engagement with portfolio companies and proxy voting.



Corporate engagement has long been a particularly strong pillar of all of our investment processes. We view engagement as one of the most powerful mechanisms to influence change in listed equities and individual or collaborative engagements can have a positive impact on companies.

Individual engagement is where Ellerston engages directly with portfolio companies. It enables discussion of relevant matters with management, ensures good corporate governance practices, and may also seek to influence corporate decision making at a strategic level. We engage with companies on a range of issues including, but not limited to, modern slavery, climate change, diversity and inclusion, greenhouse gas (GHG) emissions[1], board governance and remuneration. Our analysis of key issues like modern slavery and climate-related risks better informs our corporate engagement priorities.

Collaborative engagement is where Ellerston may engage with companies, including those within and outside our portfolio, alongside other investors and industry experts. Collaborative engagement allows investors to pool resources together, which saves investors from duplicating efforts. It also allows investors to have a uniform and targeted approach which can also be less onerous on companies' resources and more effective to enact change. Investors engage on several ESG issues, including climate change and diversity and inclusion.

Industry Group engagement is important for Ellerston, where we engage with the ESG industry, contributing to the evolving development of ESG and gaining additional insights from various forums and working groups. We engage with third parties such as finance and ESG professionals, clients, peers, NGOs, government bodies and policy makers on a range of ESG topics.

Proxy Voting is where Ellerston votes on behalf of our clients at the Annual General Meetings (AGMs) or special meetings of companies that we have invested in. We intend to vote their proxy in the best interests of their investments in the portfolios that we manage on their behalf. Portfolio managers (PMs) are responsible for their own fund's proxy voting, with our operations team facilitating and notifying PMs and the ESG team of upcoming votes. The ESG team monitor the voting proposals and supports the PMs in sustainability-related voting decisions where required. Ellerston currently discloses our proxy voting records and the majority of our listed equity holdings on a semi-annual basis, which exceeds local market standards.

1 GHG emissions and carbon emissions are often used interchangeable, carbon dioxide equivalent is often used as a standard measure of GHG emissions (i.e. GHG emissions are converted into carbon emissions for ease of comparing).

Individual Engagement with Companies

Throughout the year Ellerston have engaged with numerous companies across a range of industries on ESG issues.

A summary of the engagements is provided below at the GICS sector level.

Sector	Example of topics discussed	
Consumer Discretionary	Corporate governance Remuneration Cybersecurity	Supply chain management Sustainability strategy
Energy	Corporate governance Remuneration	Sustainability strategy
Financials	Board structure Remuneration	
Industrials	ESG reporting ESG rating systems Workplace health and safety	Carbon emissions Diversity & Inclusion Responsible AI
Information Technology	Corporate governance Remuneration	Supply chain management

Collaborative Engagement and Industry Participation

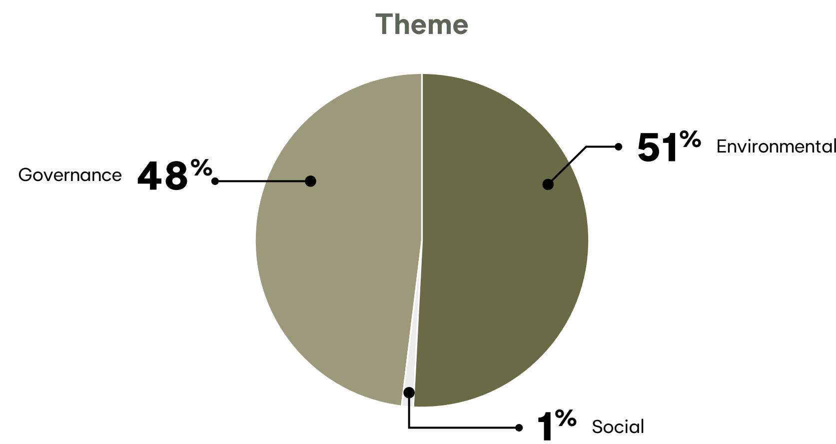
The following is a list of our memberships and working groups.

Memberships
Principles of Responsible Investment (PRI)

Engagement Summary

Ellerston Capital undertook over 300 engagements for FY25-26. Our investee companies were engaged on a variety issues, with environmental issues such as carbon accounting, climate change and environmental impact being the focal points. With increased regulatory and public focus on climate reporting, we predict this will continue into the future.

The following is a summary of all engagements by Ellerston from 1 July 2025 to 30 June 2026. This is broken down by theme.



Case Studies

The following are examples of 6 companies that Ellerston engaged with throughout FY 2025-2026.

Case Study

Fleetwood Australia

ASX: FWD, Australian Micro Cap

Industry (GICS sector and industry)
Construction & Engineering

ESG theme
Climate Change, Indigenous Affairs, Biodiversity, Disclosures

Engagement

Fleetwood Building Solutions is Australia's largest owned and operated, vertically integrated, off-site manufacturer and modular building solutions company.

The company had been reporting ESG-related commentary for a few years in their annual disclosures, but broadly their disclosures were lacking ESG-related data points and quantitative targets. Associated documents were also not disclosed online, such as company policies and governing charters. We wanted to understand what ESG topics the business was focusing on and what initiatives were in place.

Biodiversity was specifically discussed as it is an emerging topic in Australian disclosures, and the construction industry is exposed to the risk due to materials used in its projects.

Result

The Ellerston ESG team were interviewed as a key stakeholder in Fleetwood's first ESG materiality assessment. The Ellerston team confirmed the importance of carbon value collection (in preparation for AASB reporting), the capture release of a full suite of health and safety data and the increase of public disclosures relating to ESG.

In addition, biodiversity will be added into the Board training schedule for FY27, and into the enterprise risk register to ensure that the risk is understood and discussed by management.

Case Study

Advanced Innergy Holdings Limited

ASX:AIH, Australian/British Small Cap

Industry (GICS sector and industry)
Materials

ESG theme
Carbon Emissions, ESG Governance, ESG Disclosures

Engagement

Advanced Innergy is a materials science company, specialising in the development, design, engineering, manufacture and installation of mission critical products that protect lives and high value infrastructure in some of the world's highly regulated, safety-critical environments.

As a newly (October 2025) publicly listed company in Australia, but operating out of the United Kingdom, the Ellerston ESG team determined it would be beneficial for the company to hear about the Australian ESG market, and the current and upcoming ESG-related legislations in place. Advanced Innergy had been increasing the ESG awareness internally but was aware that the Australian market was different to the UK.

The discussion with the company explored:

- That their current level of ESG disclosure was minimal as they have just transitioned to a listed company
- Preparation for ASRS / AASB reporting
- What an ESG materiality assessment was, and how it can guide ongoing ESG strategy
- What ESG-related business as usual practices the company currently undertakes, which requires no additional knowledge or cost, such as health and safety management, and how it can be the starting point for ESG disclosure in their first year of reporting

Result

The management team representatives at Advanced Innergy were educated on the Australian market, and what the ASRS / AASB reporting framework will expect from the organisation.

They were introduced to a handful of local ESG consultants for ongoing assistance and encouraged to undertake an ESG materiality assessment next financial year in preparation for their first full year of being a publicly listed company.

Case Study

Endeavour Group Ltd

ASX: EDV, Australian Large Cap

Industry (GICS Sector)
Retail/Hospitality

ESG Theme
Remuneration

Engagement

Endeavour Group is Australia's largest integrated drinks and hospitality business. It operates through two main segments of Retail and Hospitality. On the retail front, the business includes Dan Murphy's, BWS (Beer Wine Spirits), Jimmy Brings and Langton's. The Hospitality business includes ALH Group (Australian Leisure and Hospitality Group), one of the Australia's largest pub and hotel operators. The business was demerged from Woolworths Group in June 2021.

As part of Endeavour's investor engagement activities, the Chair of the People and Governance Committee offered a meeting to provide an update on the current Remuneration Report, as well as giving investors an opportunity to raise questions and provide feedback.

Result

Endeavour noted that there have been extra expenses to the business due to the separation from Woolworths. Additionally, due to the unexpected Woolworths warehouse strikes that caused disruption in December 2024 (estimated $40-$50 million in lost sales), Endeavour were unable to meet their EBIT targets. Even with the disruption, the REM scorecard which is used to evaluate executive remuneration still achieved 46% (against a 50% threshold), without the disruption its estimated to have been 56%), noting the scorecard had a 60/40 split on financial vs non-financial metrics. Taking this into account, the investment team deemed it fair to vote "For" the Remuneration report.

Case Study

Fresh Clinics

Private Equity – JAADE Fund

Industry (GICS sector and industry)
Healthcare

ESG theme
Governance

Engagement

Ellerston JAADE's portfolio company operates a network of specialist clinics providing consumer health and wellness services. As part of its engagement activities, the Ellerston ESG and investment team reviewed the company's governance arrangements (Board composition etc.)

Result

Following this engagement, Ellerston encouraged the appointment of an independent director, with a preference for female representation, establishment of additional oversight committees to strengthen risk and governance processes. The company has since appointed an independent director, representing a positive outcome from Ellerston's conversations with the company and a strengthening of board oversight and diversity.

Case Study

Healius Ltd ASX

HLS, Australian Large Cap

Industry (GICS Sector)
Health Care

ESG Theme
Remuneration

Engagement

Healius is an Australian healthcare company that provides diagnostic services, including pathology and diagnostic imaging. They are a major provider of pathology services in Australia, with a large network of laboratories and collection centres. Additionally, Healius offers diagnostic imaging services and operates day hospitals.

As part of Healius' investor engagement activities, the Ellerston ESG and Investment team met with the Chair of People and Governance Committee to provide an update on the feedback from the FY25 Remuneration Report, proposed FY27 incentive structure and remuneration, succession planning and any other matters of importance.

Result

Healius noted it's increasing use and implementation of AI across the company, particularly in the accounts receivable business line. Additionally, Healius understood Ellerston's concern regarding the declining share price and noted confidence that the business has made the necessary changes to ensure efficient and productive operations.

Case Study

EcoJoule

Private Equity – Industrial Growth

Industry (GICS Sector)
Industrials

ESG theme
ESG Reporting & Data

Engagement

EcoJoule Energy is a Brisbane/Loganholme-based Australian energy technology company that makes power management hardware for electricity grids, particularly to help utilities handle the shift from a traditional one-way grid to a more complex, decentralised grid with lots of rooftop solar, home batteries, and EV chargers

The Ellerston ESG team discussed several topics with the EcoJoule including but not limited to:

- Climate Change: Commence measurement and reporting of company emissions (Scope 1, Scope 2), and material Scope 3 emissions.
- Waste: Waste reduction initiatives and the collation of data relating to these initiatives.

Result

EcoJoule have commenced emission and climate risk data collection that provides an overview scope 1 and 2 emissions including calculated scope 2 emissions. The Finance team have completed an ESG micro- credential delivered by Skills Lab and Manufacturing Skills Queensland. As part of the program, the EcoJoule team have identified recycling and/or reuse of pallets as initiatives to implement alongside a review of alternative packaging material.

Proxy Voting

Proxy Voting Guidelines

As a responsible investor, we believe that ESG issues may impact the value of entities in which we invest. We are committed to incorporating ESG standards into our voting criteria to act in the long-term interests of our clients as per our guidelines below:

1. Act in the long-term interests of shareholders.
2. Protect shareholders' rights.
3. Ensure independent, diverse and efficient board structure.
4. Align incentive structures with long-term interests of stakeholders.
5. Disclose accurate, adequate, and timely information.
6. Ensure good environmental and social performance.

Voting decisions are based on the following considerations:

For: The proposed resolution reflects good practice and is in the stakeholders' long-term interest
Abstain: The proposal raises issues of concern for shareholders or lacks sufficient information
Against: The proposal is not acceptable and is not in the shareholders' long-term interest

In the event that we vote on a resolution in opposition to the management recommendation, we will attempt to engage with the Company ahead of the shareholder meeting in order to communicate our voting intention and explain our rationale for opposing the management recommendation.

Proxy Voting Process

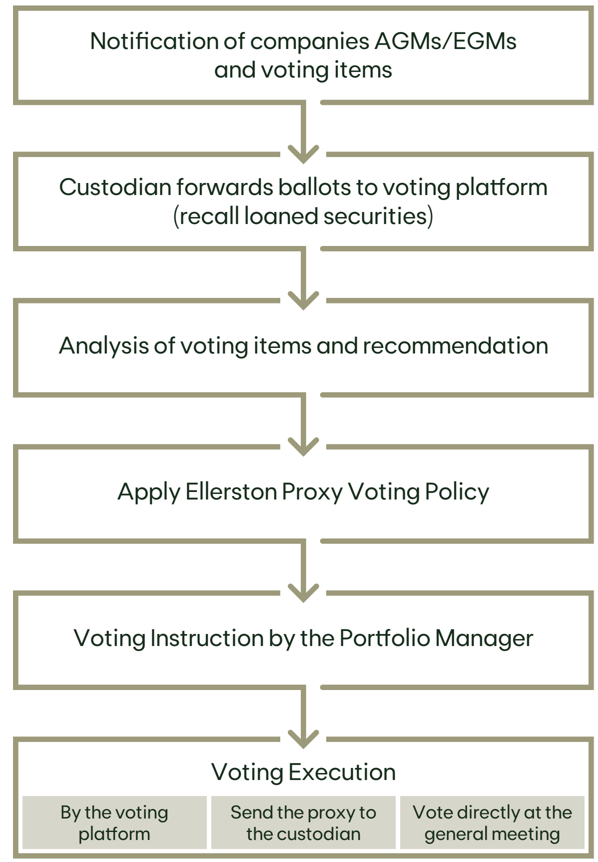
Ellerston receives notices of shareholder meetings from its portfolio companies through its custodians or the companies themselves. Our analysts and portfolio managers will form a view on the items to be voted upon with the voting decisions being made on a case by-case basis based on the guidelines above.

Where Ellerston has discretion under its agreement with the client, as a general rule, Ellerston will not seek direction from the client prior to it exercising a vote or initiating relevant company engagement to address individual issues. However, Ellerston may from time-to-time consult with clients on particular issues. Clients may require our proxy voting to follow the recommendations of third party Proxy Advisors, or may direct Ellerston to vote on specific issues, and we will implement that direction to the extent we are able to do so.

It may be the case that we attend shareholder meetings and vote for our clients proxies in person.

As part of enhancing our voting process, we are now more closely monitoring sustainability-related proposals, for example, proposals relating to biodiversity, climate change, GHG emissions, modern slavery, human rights and diversity and inclusion.

The following schematic outlines the key steps of the proxy voting process, from the notification of voting agendas in the context of Annual General Meetings (AGM) or Extraordinary General Meetings (EGM), through to actual voting execution::



Disclosure and Transparency

Consistent with our commitment and responsibilities related to PRI and, where relevant, product certification bodies such as RIAA, our policy is to provide full transparency on our proxy voting on an annual basis.

After the close of each financial year, Ellerston will publish on its website a summary of its proxy voting activities for the previous financial year providing the details below (when available):

- The name of the entity and the country in which it is listed
- The meeting type and meeting date
- Whether the matter or matters voted on were proposed by the issuer, its management or another person or company
- A brief identification or description of the matter or matters (proposals) to be voted on at the meeting
- The Management recommendation
- How Ellerston voted, or advised, on the matter or matters
- Whether Ellerston voted against management on the matter or matters
- In the case of a decision to vote against management a record reflecting the reason for that decision

Other Issues

Conflicts of Interest
All Ellerston employees are under an obligation to be aware of the potential for conflicts of interest with respect to proxy votes on behalf of clients. We acknowledge that conflicts of interest do arise and where a conflict of interest is considered material, Ellerston will abstain from voting until the conflict is managed or resolved. Ellerston maintains a Conflicts of Interest Policy which provides the framework and rules which address this issue.

Shorting
Where client and product mandates allow, Ellerston may from time-to-time sell short securities of companies where it believes this will generate good investment returns for our clients. Ellerston cannot vote on securities that are short sold; the buyer is entitled to vote instead.

Securities Lending
The holdings of Ellerston's funds may be loaned out by our custodians to generate securities lending revenues and facilitate market liquidity. If holdings are loaned out; to vote at forthcoming shareholder meetings, we will attempt to have the shares recalled.

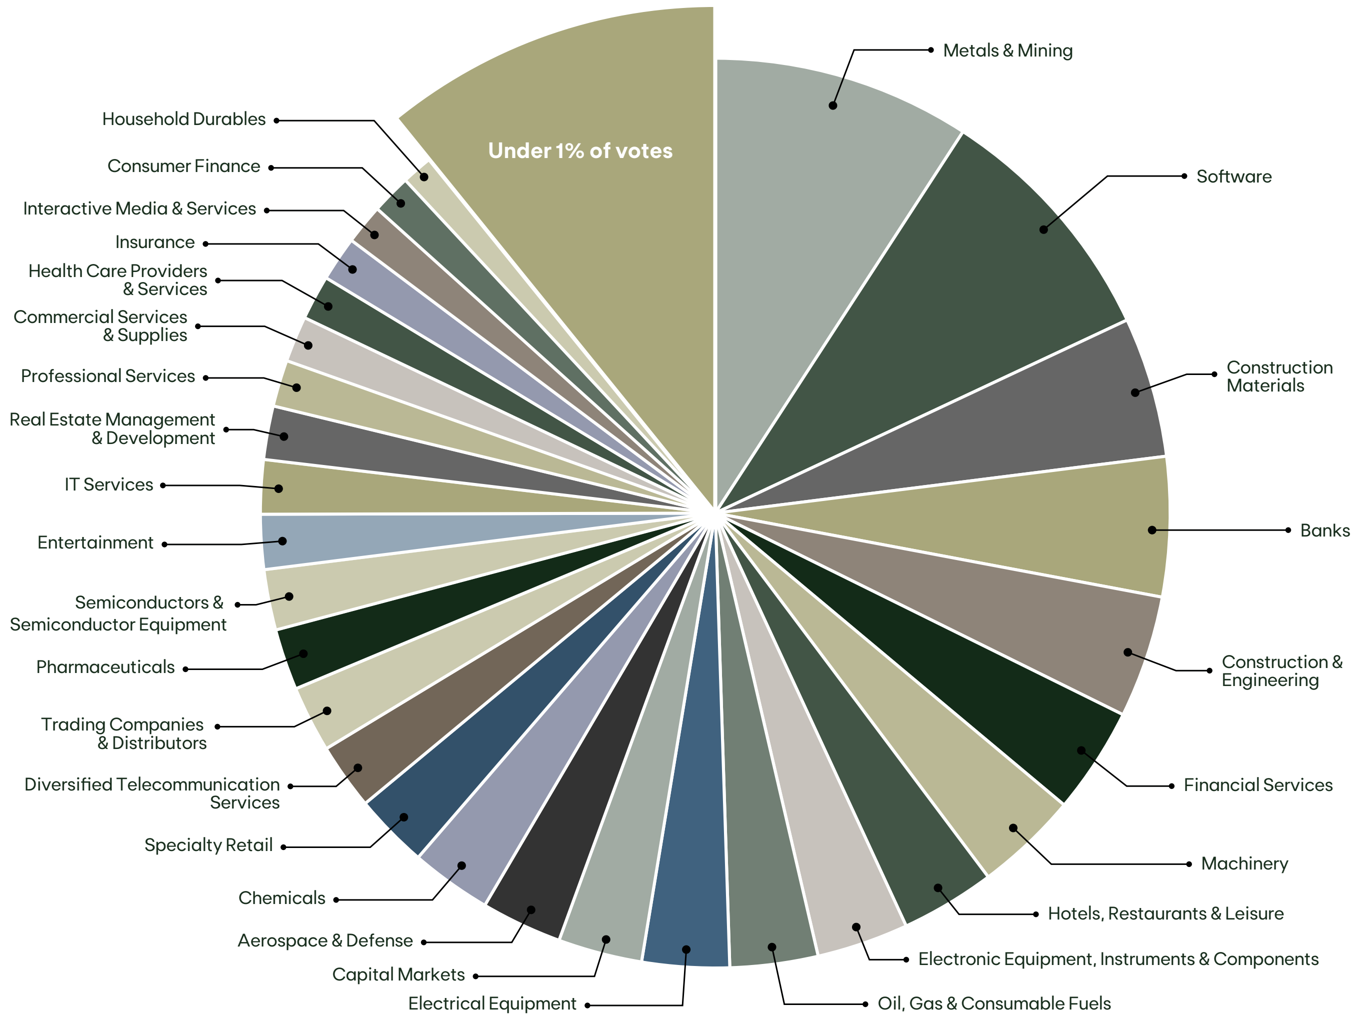
Summary of Proxy Voting

Throughout FY2025-2026 we voted on more than 350 meetings that consisted of more than 2,500 proposals. This was for over 300 companies across more than 20 countries.

The following demonstrates the sectors that we have voted in:

Sector Voted

From 1 July 2025 to 30 June 2026, we voted on 99.50% of votable proposals. Where we voted, 9.54% of our votes were against management recommendations. For each of these proposals where we voted against management, an explanation is provided in the table below (Full Disclosure of Proxy Voting Record).



Sectors with under 1% of votes

Broadline Retail
Industrial Conglomerates
Biotechnology
Automobile Components
Food Products
Containers & Packaging
Health Care Equipment & Supplies
Energy Equipment & Services
Technology Hardware, Storage & Peripherals
Automobiles
Beverages
Transportation Infrastructure
Textiles, Apparel & Luxury Goods
Consumer Staples Distribution & Retail
Health Care Technology
Office REITs
Communications Equipment
Life Sciences Tools & Services
Diversified REITs
Media
Specialized REITs
Air Freight & Logistics
Building Products
Distributors
Electric Utilities
Ground Transportation
Retail REITs
Independent Power & Renewable Electricity Producers
Wireless Telecommunication Services

Full Disclosure of Proxy Voting Records

The following is a table of all votes cast by Ellerston from 1 July 2025 to 30 June 2026. Explanatory notes are provided where Ellerston voted against management[1].
